- Porting, stabilization activities, bug fixing and maintenance for the Aeronautics project "SiLEF 2.0";
- Internationalization for the project "SiLEF KAF";
- Bug fixing for the Aeronautics project "SiLEF".

Technologies: J2EE Web Applications (JSP/Servlet), Java 8, JavaScript, JQuery, GIT, Intellij IDEA.

September 2012 - July 2019

@ ITALIAN HINDU UNION

Frontend Web Developer & Android Developer

- Development of the Android App "MemoNagari";
- Development of the AR App "3D Hindu Gods – UII";
- Layout and graphic project and fronted development of the following websites: induismo.it, ashramgita.com, teofonia.it and several other events related websites.

Graphic & Web Designer

- Graphic design for custom flyers, books and booklets, magazines, gadgets, promo swag.

Technologies: HTML5, CSS3, JavaScript, Android Studio, Java, Adobe CC (Photoshop, InDesign, Illustrator, Premier Pro), Unity, Vuforia SDK.

INTRO / FUN FACTS

- I am a self-taught software developer with a diverse job history, ranging from graphic designer to translator, from copywriter to control room operator, from event planner to personal assistant (just to name a few).
- I have a Bachelor's Degree in Sanskrit Language. That must be why I enjoy working on large legacy codebases: it's just like translating a Sanskrit text ;)
- I have a talent for getting along with and befriending virtually anyone. I enjoy working both in a team and solo.

TECHNICAL SKILLS

`Java` `JavaScript` `HTML5 & CSS3` `GIT`
